Introductions and Common Questions

What do you think they are?

• *Tell me about yourself*
• *What are your research interests?*

Don’t be fooled by the ease of these questions!

*Icebreaker:* The 30-second elevator speech
Other Common Questions

They can and will, draw from your personal statement, experiences, and research

Know your research (and other writings)!

• What is your particular interest in our school?/Why is our school/program a good fit for you?

• What strengths or characteristics will you bring to the program?

• How do you adapt to change?
Behavior-based Questions

Questions about you, your experiences, your capabilities. **Know your application and use the STAR technique:**

- **Tell me about a time when you needed to confront peers because of their behavior or lack of action.**
- **Share with me a time when you had to work with someone whose views on the topic where quite different than yours.**
- **Describe a time when you feel you didn’t work up to your potential.**
- **Give an example about a time you needed to persuade a person or group make a change.**
Questions About Extra-curricular Activities

What are schools really trying to find out? What did you contribute and gain.

• Why did you choose to get involved in…? What did you gain from joining…?

• Tell us about your involvement in …… What did you contribute? What did you learn about yourself?

• Are there clubs or activities you look back and wish you would have joined? What did you miss?
That dreaded question…

Which question are you dreading the most?

– Know the weaknesses in your application
– Be prepared to possibly address them
  • *Academic rough starts (freshman year), valleys or poor marks along the way*
  • *Police, campus police, residence hall, honor code, and/or academic violations*
  • *Lack of, or less experience than typical applicants, in any particular area*
Questions For You to Ask

If you could ask only one question of your interviewers, what would it be?

• You are interviewing the school, too
• Don’t ask what is easily available on the web
• Never be caught without a thoughtful question – prepare & write down 5-10
• Know who to ask what questions
• Think about some of the most important elements in evaluating a school (to you)
Stress Management

    • Remember… *They like you!*
  – Physical perspective
    • Exercise, breathing
  – Visual success
Thank You’s and Follow Up
