### **Department Review Process** (see Executive-Summary-Departmental-Review-DRAFT)

Discussion: Folks needing more information, concerns about it privileging undergrad programs, concerns about scheduling, implementation may be as soon as next fall semester (2025)

### **Summer Doctoral Task Force's Recommendations**

Update: Sarah Matthews and Megan Carroll shared recap and recommendations based on summer research. Timing and standardization emerged as key concerns. Language can be confusing for students. A repository of offers could be helpful. Annual review for inflation/cost of living increases. Need central support because many colleges couldn't support this. Increase may have challenges but could be worth supporting fewer students more fully. Looking to continue the research on master's and other degrees. Molly has ideas on repository; needs to be searchable.
