What is this Document?

The Graduate College procedures manual explains in detail how processes are executed at the Graduate College. You will find screenshots and step-by-step instructions on each process including the role of the student, the program coordinator, the program director, and the Graduate College. This document will be updated as procedures change. The last updated date is published on the title page of the document. To review Graduate College policies, please go to the Graduate College Handbook, http://grad.uc.edu/fac-staff/handbook.html.

Who to Contact

**Graduate College Staff**

**Megan Tischner, Program Director** (62379)  
carrolm2@ucmail.uc.edu  
Supervise Graduate College staff  
Yates Fellowship Program and Provost Graduate Fellowship  
Other Graduate College scholarships, including the GSHI award  
Graduate College listservs (co-owner with Virginia)  
Professional development, including PFF, workshops, and 3MT

**Emily Bayman, Academic Evaluator** (65089)  
Yeattses@ucmail.uc.edu  
ECurriculum Major Map Approvals  
Catalyst Degree Audits

**Virginia Dennis, Program Manager** (64343)  
virginia.dennis@uc.edu  
Thesis/Dissertation Committee Member and Chair Database  
Internal Transfer – transferring UC credit hours to UC Graduate program  
Advanced Standing  
Reviews RequestAccess Forms for Grad School systems
Reinstatements
Readmission
Extensions
Leave of absence
Graduate College contacts page
Graduate program review
Graduate College listservs (co-owner with Megan)
Award template letters (UGA, GAS, GIA)

**Shaymaa Minkara, Program Manager** (64341)
[minkarsa@ucmail.uc.edu](mailto:minkarsa@ucmail.uc.edu)
Graduation Applications (Student Checklist and Catalyst)
Graduation Certification
Doctoral Hooding and Master’s Recognition Ceremony
ETD Submissions
Adding CPP Stacks

**Amy Wheeler, Program Manager** (64342)
amy.robinson@uc.edu
Recruitment and career fairs
Focus on UC undergraduate students, minority recruitment, returning adults and industry
Advise prospective students on UC graduate programs, admission questions
UC campus and graduate program visits
Graduate College Conference and Open House events
Graduate Program Review

**Brady Wright, Executive Staff Assistant and Office Manager** (65380)
wrigbd@ucmail.uc.edu
Assist Graduate College leadership (calendar & scheduling)
Supervise Graduate College GAs and student workers

**Staff in Other Offices Providing Support**

**Angel Prewitt-Business Affairs** (65039)
Responsible for all Graduate College business and financial matters
Distribution of University Graduate Scholarships (GAS/GIA) and Assistantships (UGA) budgets

**Emily Kregor, Software Apps Developer, Office of Research** (66038)
emily.kregor@uc.edu
ECurriculum Program Descriptions

**Emilee Suchomski, Associate Director, Enrollment Management-Admissions** (68459)
emilee.suchomski@uc.edu
Graduate Admissions and Slate – point of contact for all questions regarding recruiting via Slate, admissions, and transcript submissions for incoming students

**Graduate College Leadership**

**Rose Marie Ward, Dean**
wardrm@ucmail.uc.edu

**Flavia Bastos, Interim Associate Dean** (62520)
flavia.bastos@uc.edu
Representing grad school leadership at various meetings, including Graduate Council, New Programs Committee, and Graduate Leadership Group
Liaison to associate deans and graduate program directors in colleges
URM recruitment and retention of graduate students

Laura Dell, Special Assistant to the Dean (60238)
laura.dell@uc.edu
Overseeing operational/transactional functions of The Graduate College, including new program and new course reviews to ensure curricular alignment
eCurriculum approvals
Matters involving the Graduate Leadership Group and Graduate Council
Representing The Graduate College Leadership at various meetings, including Graduate SEM and GEM
Graduation Waivers
What is AdminCentral?

AdminCentral (https://gradapps.uc.edu/AdminCentral) is a site that you should bookmark in your web browser. There are links to important Graduate College systems, funding templates, and resources such as the Grad School internal calendar and work guides.

Requesting Access to Graduate College Systems

On AdminCentral, you will find a link for Request Authorization at the top.

Use this tool to request access to Graduate College systems such as CertifyOnline and GradTracker, and to add yourself as a contact on the Graduate College Contact Details page.

Request Access Instructions (PDF)
Procedures during Student Matriculation

Review Student Status
Graduate program coordinators and directors can review the status of all their matriculated students using a Graduate College custom software named GradTracker. Navigate to GradTracker from AdminCentral.

Viewing the List of All Matriculated Students in a Particular Program

1. From within GradTracker, click on the “My Programs” icon:

2. Select the college and program name.
3. The list of all matriculated students within this program will appear.

Pay close attention to highlighted cells. These indicate potential problems (yellow) or definite problems (orangey-red). From the main list, you can see at a glance:

- if the student has applied for graduation,
- time left in program before time-to-degree expires,
- if the student is currently registered,
- GPA issues,
- and grade problems.

To click the detail of the student’s record, click the “Select” link on the far left.

Tips for Success

At the beginning of each semester, graduate program coordinators and directors should:
• Check the list of students at the beginning of each semester (prior to the 15th day of the term). Are all these students in the list still active (ex., student hasn’t asked to be removed from the program)? If there are students listed who have left the program, please use the “Discontinue Request” form link in Slate to have the student’s program stack discontinued.
• Monitor for students whose GPA is dropping and approaching 3.0. Does this situation require some additional action?
• Monitor for students whose GPA is below 3.0 and determine what to do next with these students.
• Monitor for students who need to apply for graduation.
• Monitor for grade problems. Does this student have an I? Make sure they finish up before the grade turns to an I/F. Are there any NG’s? Make sure those courses get graded right away.
• Monitor for time to degree. Is this student within one year of exceeding their time to degree and in need of an extension?
• Monitor total credits. Is this student currently getting funding from a source governed by the 174 rule? How close is this student to exceeding 174 credits?
• Monitor if the student has registered yet this year, particularly if the student has not registered in fall or spring. The student would only have summer left to earn their minimum 1 graduate credit for the academic year.

**eCurriculum**

eCurriculum is a custom software built by IT@UC. This software handles many important business processes. Some of the data from eCurriculum are reported out to state and federal entities. Access to eCurriculum is usually assigned through the college dean’s office. Please see Bearcat Landing for college user managers. Several different roles exist. Examples include: Program Director, Unit Head, and Academic Committee, College Curriculum Committee. A person can have multiple roles.

eCurriculum has an approval workflow process for course creation or modification, program modification of learning outcomes, program description creation or modification that posts on the main UC site of all programs at the university, and curriculum guides/major maps. It is very important to keep eCurriculum up to date. The rule of thumb is that if it is not in eCurriculum, it is not official. Your eCurriculum program descriptions are posted on the main UC site (and the Graduate College homepage) through the degree programs list, and these program descriptions receive an enormous number of hits. Having outdated information here will hurt your program. Major maps are incredibly important. The total credit tab is used to assess minimum total credits for the program at graduation and the curriculum you build are used to create degree audits. Curriculum guides are also published on the main UC site.

**Tips for Success**

Near the end of each spring, update the following in eCurriculum:

• Program Descriptions
  o Is the contact person listed correct?
  o Does the admission application section need to be updated?
Does the admission deadlines section need to be updated?
Is your description interesting and a good marketing tool for prospective students?

- Major Maps/Curriculum guides
  - Once the curriculum is determined for the next academic year, copy the previous year’s major map. This allows you to edit a fresh copy rather than starting over.

- As soon as information about a course has been determined, add information on a new course or update any existing course attributes such as pre-requisites.

**Advanced Standing**

Before requesting advanced standing, please review the Advanced Standing policy within the handbook. Should the program choose to accept external graduate credits, the program (not the student) must complete the online form accessed in GradTracker and submit a final transcript from the university where the credits were earned.

Advanced Standing Guide (PDF)

**Grades Assigned to Research Courses that Are Repeated**

If students are working on dissertation or thesis research beyond the required 7 research credits for dissertation or the number required for thesis by their program, they should be registered in the appropriate research course (e.g., Individual Dissertation or Individual Master’s Thesis), with the course work graded as \textit{P/UP} (passing/unsatisfactory progress), \textbf{not} \textit{NG} (no grade) or \textit{I} (incomplete). Students should be graded for the semester based on their progress/achievements in that semester.

\textit{SP} grades should no longer be used as long-term placeholders while students complete long-term projects. If an \textit{SP} grade is used, it must be converted to a final grade by the end of the following semester. An \textit{SP} grade should only be used for short-term extensions to allow completion of specific assignments. \textit{NG} grades are also not appropriate as long-term placeholders. Students should be graded for the semester based on their progress/achievements in that semester. It is the program director’s responsibility to communicate this to all faculty advisers and doctoral students in their program so that grades are used consistently. (See Grades Assigned to Research Courses that Are Repeated in the handbook for complete details of this policy.)

Change-of-grade forms for research courses are initiated by the instructor and submitted directly to the Registrar’s Office. They do not need to be approved by the Graduate College.

\textbf{Note:} The definition of a “research course” is a course outside of formal class work or instruction that allows a student to be registered as a graduate student while he/she is working independently on his/her thesis or dissertation under the guidance of his/her adviser or dissertation committee. This policy also applies to internships and other multiple semester or series courses.
Degree Audits

Degree audits are an electronic curriculum guide. Degree audits are used by both students and advisors to determine progress toward degree. As soon as a student registers for a course, it appears in the degree audit and shows where the course applies in the curriculum. Degree audits are also used by Financial Aid to determine if a course is degree applicable and therefore aid eligible. The access needed to both run a degree audit and create exceptions is called Advisor 2 access. To get Advisor 2 access, complete the Catalyst access request form. Please see the Catalyst training in Success Factors and search for Catalyst: Degree Audit in the Find Learning section for detailed instructions on running degree audits and creating exceptions.

To adjust a curriculum to fit a student’s needs, an exception may be required. Exceptions can be made by graduate program faculty and staff who have completed the Advisor 2 training for Catalyst. Exceptions are saved in Catalyst. Each time the degree audit runs, no matter who runs it, the exceptions will appear.

Tips for Success

Run a degree audit for each student before and after registration and make sure the registration is appropriate:

- Did the student register?
- Did they register for the proper course?
- Did the student register in the GRAD career?
- Did the student register for the correct number of credits on a variable credit course?
- Do all of the student’s courses from last term fall into the correct place on the degree audit?

Make exceptions as soon as you see it is needed:

- Does the student need a course substitution?
- Is the student taking more courses in a certain area to meet their educational needs? You may need to adjust the hours in the section so all the courses apply

Grading of Dissertation/Thesis and Research Credits

Programs need to be internally consistent in how they grade dissertation/thesis and research credits. We recommend pass/fail grading, but programs may also use letter grades if they think this is important for their program. However, whatever modes of grading they select must be uniformly applied to all students in their program. Please also recall that programs must provide students with final grades in such courses every semester. The use of I and SP style grades should only be used for short term extensions to complete work from that single semester in the following semester. NG grades should never be used as placeholders.
Admission to Doctoral Candidacy Letters

The program coordinator or director is responsible for entering the student’s candidacy completion date into Catalyst.

Entering Candidacy Completion Dates in Catalyst (PDF)

WORKGUIDE

Once the candidacy date is entered, candidacy letters can be generated online through GradTracker. The system will automatically send candidacy letters (letters from the Graduate College to the student congratulating him/her on reaching candidacy) on Fridays if the candidacy date is entered the same week candidacy was achieved. The candidacy letter is sent to the student, CC’ing the program coordinator, program director, and (if the committee has been entered) the chair of the committee.

If candidacy was achieved more than one week from when candidacy was entered, the graduate program coordinator or director can generate the candidacy letter the day after s/he entered the date in Catalyst by doing the following:

1. Select the student in GradTracker
2. Click on the Academic Status icon
3. Click on the Details link for Committee Info
4. Look to see if Candidacy Letter Sent=“yes”. If “yes,” the letter was automatically sent.

Whether the candidacy letter was previously sent or not, you can always click the “Resend” button to send another letter. This will send the letter to student, program director, program coordinator, and chair (if committee was entered).

Dissertation and Thesis Committee Members

This workguide on the next page provides step-by-step instructions on how to enter the committee for a student’s thesis or dissertation.

How to Enter a Thesis or Dissertation Committee (PDF)

WORKGUIDE
External Committee Members
For an external committee member, complete the online external committee member request form—accessed in GradTracker on the Committee Info page—and submit their CV.

UC Committee Members

UC Tenured or Tenure-Track
If a committee member is tenured or tenure-track and not available in GradTracker because they have not previously served as a committee member, please send an email to Virginia Dennis (Virginia.Dennis@uc.edu) with name, UCID, and CV to have the faculty member added to the GradTracker database.

UC Non-Tenure-Track or Non-Tenured
If a committee member is in a non-tenure-track role (e.g., educators, research faculty and visiting professors) and is not available in GradTracker because they have not previously served as a committee member, please send an email to Virginia Dennis (Virginia.Dennis@uc.edu) with name, UCID, and CV to request UC committee member review.

Chairs and Graduate Faculty
The Graduate College defines Graduate Faculty to include permanent (i.e., tenured or tenure-track) members of the UC faculty who have been authorized to lead the original scholarship of graduate students by the unit in which they hold their primary academic appointments and who are authorized, with the approval of the Graduate College, to chair a doctoral dissertation committee.

Requests for graduate faculty status must be sent to Virginia Dennis, Program Manager, (Virginia.Dennis@uc.edu), from the college/program associate dean nominating the individual to the graduate faculty. A CV and faculty appointment must be included in the request. Note: Changes to the process are underway and the procedure guide will be updated once the new process is finalized. Until then, please continue to follow the current procedure and reach out to Virginia Dennis (Virginia.Dennis@uc.edu) with additional questions as needed.
Transcripts and Degree Verification for Outstanding Current and Graduating Students

Starting with incoming Fall 2022 graduate students, Enrollment Management: Graduate Admissions manages all processes for receiving, reviewing, and processing official transcripts. This includes placing holds on student accounts for those who do not submit transcripts by the requested date.

The Graduate College is still working through a backlog of transcripts accumulated during the pandemic. Any transcript that we received, but was not processed, has now been uploaded to Slate.

The status of received student transcripts can be monitored via Slate via the Dashboard tab or Materials tab.

As we are working through this backlog, priority is given to students who have applied for graduation. Please give the Graduate College one week following the graduation application deadline to process any transcripts we have on hand for students graduating that semester.

If, one week following the graduation application deadline, the graduating student is still flagged in GradTracker for a missing transcript, then the student will need to submit an official transcript with degree verification as part of their graduation requirements. These transcripts need to be sent to Graduate Admissions (grad.admissions@uc.edu, or Graduate Admissions, University of Cincinnati, 2618 University Circle, PO Box 210091, Cincinnati, OH 45221-0091).

The status of processed student transcripts can be monitored through GradTracker by clicking on the Missing Transcript icon:

Megan Tischner (carrolm2@ucmail.uc.edu) is overseeing the “transcript clean-up project” in the Graduate College. Please contact her with questions.

Matriculation Work Guides

Catalyst Academic Advising work guides and video tutorials are available at http://www.uc.edu/catalyst/training/training-materials/advising.html. All of the Graduate College’s matriculation-related workguides featured in this document have been collected on this page for your convenience.

Entering Candidacy Completion Dates in Catalyst (PDF)
Processing Reinstatements, Extensions, Readmissions, and Leave of Absences

Reinstatement/Readmission/Extension

Students matriculated into a master’s or doctoral degree program must maintain graduate student status by registering for at least one graduate credit hour each academic year (fall–summer). A master’s student must also complete his/her degree within 5 years and a doctoral student within 9 years.

Submission Process

An advisor, program coordinator, or program director submits the request and required documentation through GradTracker. Please see the workguide below for the steps to follow in submitting reinstatement, readmissions and extensions in GradTracker.
Leave of Absence

Under special circumstances, including personal or family medical conditions, call to active military duty, maternity/paternity leave, or death in immediate family, graduate students can apply for a leave of absence from formal study at the university for a specific period up to one academic year. A leave may be renewed for up to four additional academic years if the student applies for a leave extension.

Submission Process

The student submits the Leave of Absence request and a one page medical statement or military orders through GradTracker. Please see the work guide for more information on the submission process.

Tips for Success

1. Put a reoccurring note on your calendar to review all matriculated students within your program(s) in GradTracker towards the beginning and end of each semester by clicking on the “My Programs” icon and selecting your program from the drop down list. You can review the students’ number of years in program, years left, if registered for that semester, GPA, and if there is a grade problem.
2. Be sure to check that all necessary documentation is attached to requests before submitting, in order to reduce the review and processing timeframe.

Graduate College Awards

Graduate College Awards

The Graduate College’s award opportunities for incoming and current students are listed online, with award criteria and deadline dates.

Graduate Student Health Insurance (GSHI) Awards

The Graduate College offers health insurance awards for graduate assistants (GAs) and fellows. These award funds are available for the fall and/or spring semester, but not for summer semester. Students must be receiving a stipend via payroll, with an employment status of a graduate assistant, or they must be receiving a fellowship stipend in order to be eligible for this award. Hourly student workers and students who have received a tuition scholarship without a stipend...
are not eligible. Only full-time students, registered for at least 10 graduate credit hours, are eligible. Students on reduced course loads are not eligible for this award.

For the current 2022–23 academic year and the upcoming 2023-24 academic year, the Graduate College has been able to secure funding in order to provide a GSHI award of $918.50/semester (maximum award of $1,837 per academic year). While the Graduate College strives to maintain this level of funding, unfortunately we cannot guarantee this level for years beyond 2023–24.

New GSHI Offer Letter Templates
In August of 2022, the Graduate College updated its 2022-23 award template letters and guidelines for international students to reflecting the higher level of annual support international students will now need to demonstrate ($53,577 for most programs). In addition, the Graduate College added an offer letter for the Graduate Student Health Insurance (GSHI) Award to the International GAS and UGA templates. When the 2023-24 award template letters were published in early November, both domestic and international GAS/UGA templates included this GSHI template.

It is the responsibility of the unit offering the GA position to write the GSHI offer letter. Students will provide this offer letter to the Graduate College via a submission form (https://grad.uc.edu/student-life/awards/gshi/submission.html). There is no deadline to submit the form, however, we recommend students submit the form by early August in order for the fall funds to disburse to their bill prior to the fall bill due date.

Students still need to meet all GSHI award criteria to receive the funds. These criteria are in included in the guidelines published with the templates, as well as on the GSHI webpage. For example, if the student waives UC Student Health Insurance, they do not meet the award criteria, and therefore, they cannot receive the funds.

Students Purchasing UC SHI Coverage for Dependent/Spouse
Students who purchase UC student health insurance (SHI) coverage for themselves and for a spouse/dependent(s) are charged the full cost of coverage for the academic year on their fall semester bill. As such, the GSHI Award submission form asks students whether they plan to purchase single student coverage or a family plan (coverage for themselves and for a spouse/dependents). For students who purchase a family plan, the Graduate College posts the maximum total of their award ($1,837) on their fall bill. Students who are billed on a semesterly basis will receive a maximum of $918.50/semester as applicable.

Verifying Eligibility Requirements
Verifying SHI Enrollment at the Start of the Semester:

The GSHI “departmental award” is a non-refundable award that can only be applied to the SHI policy charge. If a student does not enroll for UC SHI, or later chooses to waive UC SHI, then the GSHI award will sit on the student’s account as “excess restricted non-refundable” financial aid. In some cases, this “excess restricted non-refundable” financial aid prevents students from paying their bills online.

As such, around the third week of the semester—at the Bursar’s request—the Graduate College will start removing GSHI awards for students who are not enrolled in UC SHI. Should the student be enrolled in UC SHI at a later date, the
student should email gshi@uc.edu and request that the award be re-posted. (However, the award will not be re-posted until the UC SHI charge appears on the student’s bill.)

Verifying All Eligibility Requirements at the End of the Semester:

At the end of the award semester, the university will re-confirm students’ eligibility to make sure that all award requirements have been met. Students who fail to maintain award eligibility are notified via their UC student email account that their award is rescinded and the $918.50 award has been removed from their account.

It is the student’s responsibility to check with the program that sponsors their Graduate Assistantship to make sure that the assistantship meets all eligibility requirements of the GSHI Award as outlined at http://grad.uc.edu/student-life/awards/gshi.html. Direct any questions to gshi@uc.edu.

Tips for Success

Please remind your eligible GAs and fellows that they must submit the GSHI award form every year. The Graduate College cannot post a student’s GSHI award funds for a new academic year without receiving the GSHI Award form submission, which is available on the Graduate College website.

Send out this reminder by mid-July, if not sooner. Please keep in mind that semester bills are due 5 calendar days before the first day of classes, and financial aid starts disbursing to students’ bills 10 calendar days before the first day of classes.

Many students want their GSHI award funds to hit their bill as early as possible. For this to happen, the student must (a) submit the GSHI Award form at least 13 calendar days before the start of the semester, to allow for enough time for Graduate College staff to post the award, AND (b) register for at least 10 graduate credit hours at least 11 calendar days before the start of the semester. The GSHI Award funds will not disburse if the student has not yet registered for a full-time course load.

Students who apply for the award and register full-time by early August will see the GSHI Award A funds posted on their bills before the bills are due.

Annual Award Letters for Returning Students

Graduate awards originating from Graduate College general funds—such as GIA, GAS, graduate assistantships, and GSHI—can only be guaranteed for a maximum period of one academic year. As such, programs must issue offer letters for each academic year a graduate student receives the award (whether the student is new or returning).

Guidelines and offer letter templates are available at https://gradapps.uc.edu/AdminCentral/Home/TrainingMaterials (“Guidelines for Award letters” section).
Graduate Student Grievances

The University of Cincinnati provides an opportunity for the resolution of disputes involving graduate students in a fair and collegial manner through a formal academic process. A grievance must be filed within 60–90 working days of the alleged improper mistreatment. Grievance forms can be found in AdminCentral Forms. Please see the work guide for the grievance submission process.

Grievance Procedure (PDF)

WORKGUIDE

Types of Allegations that Can Be Submitted Through the Grievance Process

- Grievances alleging improper dismissal or suspension from a graduate program.
- Grievances alleging the improper withholding or termination of financial support of any kind.
- Grievances alleging any other improper treatment, either substantive or procedural, of a graduate student by a staff or faculty member or university agency except those listed below.

Types of Allegations that Cannot Be Submitted Through the Grievance Process

- Allegations of improper evaluation of the quality and/or quantity of academic work, which a student cannot grieve.
- Allegations of unfair recommendation for employment or further graduate study, which a student cannot grieve.
- Allegations of discriminatory treatment arising from the student complainant’s disability, race, color, religion, national origin, ancestry, medical condition, genetic information, marital status, sex, age, sexual orientation, veteran status or gender identity and expression; these allegations are handled separately by the UC Office of Equal Opportunity and Access.
- Allegations of discrimination and sexual harassment; these allegations are handled according to the university discrimination procedure as outlined by UC’s Notice of Non-Discrimination.

Tips for Success

Encourage students to work with the Ombuds Office to resolve concerns at the college level before formally filing with the Graduate College.

At each of the three levels (Department Head, College Dean, or Grad School Dean), a disinterested facilitator must be appointed and identified in writing (Form B) to all parties within 10 working days of receipt of Form A.
Graduation Procedures

How to Review, Approve and Finalize Students for Graduation

Graduate program coordinators and program directors should access CertifyOnline to review, approve and finalize students for graduation. To gain access to CertifyOnline, request access through AdminCentral.

In order for the student to be reviewed by the Graduate College for graduation certification, the following must be checked on the student record:

- **PR** (Program Review) approval for each student record (indicated with a green check mark).
- **PDA** (Program Director Approval) approval for the student’s record (indicated with “Approved” selected in the drop-down menu). See the screenshot of this on page 32 under “Example of a Certified Student.”

Programs should continue to review and monitor the CertifyOnline candidate list for Graduate College approval. Normally, this is completed the week following the PDA approval deadline.

- A student approved by the Graduate College for certification will appear with a green check in the CF column on the program candidate list.
- Any student not approved for graduation must be notified by the program to reapply for the next semester.

**Tips for Success**

- At the beginning of each semester, look up the term’s graduation application deadlines at https://gradapps.uc.edu/graduationdeadlines/graduation-deadlines.aspx and add these deadlines to your calendar.
- One week before the semester’s application deadline, log into GradTracker to view the students that have applied for graduation that term. **Remind any student eligible for graduation to apply**, as there are no exceptions to the graduation application deadlines. Students who miss the graduation application deadline will have to apply the following term.

**CertifyOnline Waiver Process**

Waivers can only be submitted by a Program Director.

- If a waiver request is needed, please visit CertifyOnline.
- Once a waiver is submitted, it will be viewable to the Program Coordinator in the student record.

1. Click on “View Details” in the section that requires a waiver.
2. Use link to create a waiver
Requesting to Delete a Student’s Application for Graduation

The “Send email to Grad School to request deleting this application” link found in the student record in CertifyOnline will send an automatic email to the Graduate College to remove the student from graduation. Please allow 2–3 days for the Graduate College to delete the application. The student will then be able to reapply for a future term.

Tips for Success

If you determine early in the term that a student who has applied to graduate will not be graduating, submit a request to delete the application for graduation as soon as possible. Once the application for graduation is deleted, the student will be able to register for coursework in the following term, and they will also be able to re-apply for graduation in the following term.

Example of a Certified Student in CertifyOnline

Note the green checkmark under CF (Certified Status) and PDA marked as “Approved”.

![Certificate Example Image]
